

# Fight COVID-19 Spread

## with Air Sanitizers and UVC Disinfection Equipment

**Help protect employees and customers at Restaurants, Cafes, Bars, Banquet Halls, and Wedding Venues by providing an indoor environment with Clean Air & Sanitized Surfaces**

Our different types of clean air sterilization technologies can effectively deactivate airborne viruses and bacteria, and reduce the spread of indoor pollutants. Clinical tests show the technology cleans the air of viruses, bacteria, germs, mold, allergens, and odors.

Wall Mount Air Sterilizers

Ceiling Mount Plasma Air Sterilizers

UVC Disinfection Trolleys  
(EPA Certification)

Digital Signage Solutions  
Display Temperature & Sanitizer Kiosks

Portable Air Sanitizers

UVC Disinfection & Air Purification Robots

- AI Technology
- Autonomous Navigation
- Video Monitoring
- Wi-Fi Control
- Intelligent Obstacle Avoidance

UVC light is **99.9999%**  
effective destroying virus and bacteria

Ultra Thin Air Purifiers HEPA Filter + ION Technology

\*Removes **≥99.9%** of bacteria and airborne viruses

- \*99.9% PM2.5 Removal Rate
- \*Patented Multi-Fan Technology
- \*Wall Mount Type
- \*Floor Standing Type
- \*Wi-Fi App Controllable (works with Google and Alexa)
- \*Optional UV Sterilization Lamp
